The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. Market price returns are based upon the midpoint of the bid/ask spread at 4:00 Eastern Time and do not represent the returns you would receive if you traded shares at other times. Global X Permanent ETF (PERM)

All data is as of March 31, 2012

Global X Management Company, LLC serves as an advisor to the Global X Funds. The Funds are distributed by SEI Investments Distribution Co., which is not affiliated with Global X Management Company, LLC.

Investing involves risk, including the possible loss of principal. Bonds will lose value as interest rates rise. The Fund invests in gold ETFs/ETCs. The return from investments in gold will be derived solely from the price gains or losses from the commodity. Gold may also be significantly affected by developments in the gold mining industry, and prices of gold may fluctuate sharply over short periods of time. REITs are particularly vulnerable to decline in the event of deflationary economic conditions, and are subject to interest rate risk, leverage risk, property risk, and management risk. The Fund may hold ETFs. As a result, the Fund is subject to the same risks as the underlying ETFs. Current and future holdings are subject to risk.

Shares of Global X Funds are bought and sold at market price, not NAV, and are not individually redeemed from the fund. Buying and selling shares will result in brokerage commissions.
